

Mono Ranjan Das

 Bangladesh  Portugal shumonsb@gmail.com github.com/shumon-das
linkedin/monoranjanddas

Self-driven fullstack developer who turns complex product ideas into fast, search-friendly, cleanly architected applications. Deep in the **PHP / Symfony** and **JavaScript / Vue / Nuxt** ecosystems, with a sharp focus on performance, SEO, and code that scales. Strong with **AI-assisted development** — leverages LLMs to ship quality code fast and stay within budget.

// STACK

● BACKEND

PHP · Symfony REST APIs
Redis MySQL / PostgreSQL
PHPUnit

● FRONTEND

JavaScript TypeScript
Vue.js · Nuxt.js
React Native (Expo) Pinia

● TOOLS

Docker Git Linux
Playwright Meilisearch
Claude Codex Junie

// EXPERIENCE

Jan 2026 – now

Fullstack Developer · Bookpointer FOUNDER PROJECT

Building a full-stack digital reading platform end to end — Redis caching, deep SEO optimization, and large-scale text handling — including advanced Bengali search and text-to-speech.

Nov 2024 – Dec 2025

Fullstack Developer · Digital Lions

Delivered modern web applications end to end, owning frontend–backend integration and shipping new features across the stack.

Mar 2021 – Aug 2024

Fullstack Developer · CoviAnalytics

Built and scaled production applications on Symfony and Vue/Nuxt over 3+ years; sped up critical paths with Redis caching and owned the full project lifecycle.

Aug 2019 – Dec 2020

Developer · Money Exchange

Developed and maintained internal business systems, turning early experience into dependable production delivery.

Feb 2018 – Jun 2019

Junior Fullstack Developer (Intern) · Softtech-IT

Where it started — built foundational fullstack skills and the habit of learning fast.
